TELESTEPS

No.1 in telescopic work tools

TOP SUPPORT

Designed to make your day safe and effective.

TOP SUPPORT

Add safety, flexibility and improved ergonomics with our Top Support.

With our Top Support mounted on your Prime Line you will be able to distance yourself from the surface you are leaning your ladder against. By doing this you will get a better and safer working position.

SAFE & FLEXIBLE ACCESS

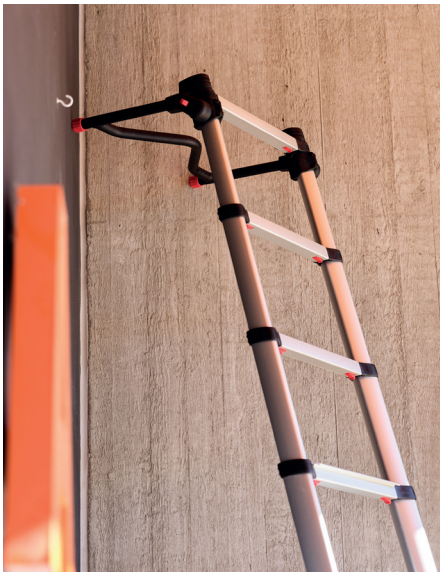

The Top Support is created to give you safe and flexible access no matter where you place your ladder. You can use it on flat surfaces, inner or outer corners, even on round object like a post or a tree.

EASY TO USE

The bar is equipped with rubber tops to prevent marks when placing the ladder on eg. indoor walls.

It is easy to use, just push the two spring loaded buttons to release the locking from its fixed position, then move the bar to open or folded position.

When using telescoping ladders, the compactness of the ladder is a key feature, that is why we, when developing our accessories, push ourselves to make sure they are safe, but we also strive to make them as compact as possible and easy to use. Comes with two sets of adapters to fit all Prime ladders and is easily mounted on the side profiles under the top rung of your ladder.

PRODUCT INFORMATION

Art. No.	9215-101
Dimensions	525x397x74 mm
Weight	0,79 kg
Fits with	Prime Line & Rescue Line

DISTRIBUTION INFORMATION

Art. No.	9215-101
Dimensions	540x402x80 mm
Weight	1,04 kg
Volume	0,01737 m^3
EAN	7332515617835

UNIQUE FEATURES

- Foldable for easier transport
- Fits all Prime ladders
- For use on walls, poles & corners
